

LONG LIVE PALESTINE!

CRUSH IMPERIALISM AND ZIONISM WITH PEOPLE'S WAR!

"Imperialism will not last long because it always does evil things. It persists in grooming and supporting reactionaries in all countries who are against the people, it has forcibly seized many colonies and semi-colonies and many military bases, and it threatens the peace with atomic war. Thus, forced by imperialism to do so, more than 90 per cent of the people of the world are rising or will rise up in struggle against it." (Chairman Mao Tse-tung)

"The supreme objective of the Palestine Liberation Movement is the total liberation of Palestine, the dismantlement of the Zionist state apparatus, and the construction of a socialist society in which both Arabs and Jews can live in peace and harmony. To achieve our objective we have adopted the strategy of people's war and protracted armed struggle. We have no other alternative; we see no other possible option to dislodge the Zionists from Palestine. Our struggle will be long and arduous because the enemy is powerful, well-organised, and well sustained from abroad. We shall win because we represent the wave of the future, because we are the immense majority of the oppressed, because mankind is on our side, and above all because we are determined to achieve victory." (Leila Khaled, Popular Front for the Liberation of Palestine)

The present global movement in support of Palestinian liberation and against the Zionist state and its occupation and genocide is shaking the very foundations of the global imperialist system of exploitation and oppression. Just as the Zionist genocide and oppression of Palestinians inevitably gives rise to a new generation of Palestinian freedom fighters, even more numerous and combative than before, this heroic struggle of the Palestinian people also inspires and reignites the fight against imperialism all over the world, including in the imperialist countries themselves. It sharpens the revolutionary situation around the world, emphasizes even more the main contradiction in the world today, that between imperialism and the oppressed nations of the third world, and confirms that the third world is the base of the world revolution.

The ongoing genocide in Palestine and the blatant complicity of the imperialist states is ripping the mask of "democracy" and "civilization" off the face of the imperialist system. It makes it clear to the vast majority that those who support the apartheid state and its crimes are the same imperialists and lackeys who are trying to save their dying system by unleashing even more wars of plunder, preparing for another world war of imperialist re-division, intensifying the exploitation of the working class and implementing more and more fascist politics. This desperate war mongering and fascistization is being carried out by the imperialist superpowers – USA, China and Russia – with the willing help of the other imperialist powers, including Sweden. USA, desperately trying to defend its position as the sole hegemonic superpower, plays the most aggressive part in this process.

The Zionist state of “Israel” since its foundation is a state built to serve as the outpost of imperialism in the Middle East. To assist imperialism (called “Western Civilization”) in its exploitation and oppression of the oppressed nations; that was the stated intention of the founders of Zionism. Since 1947 they have not only engaged in constant displacement and genocide against the Palestinian people, but also sent their experts in genocide, torture and “counterinsurgency” to assist the imperialists and their fascist puppet regimes in trying to crush the revolutionary, progressive and popular movements all over the world.

The heroic Palestinian people and its just armed struggle against imperialism and Zionist occupation in this way represents not only Palestinian liberation, but the world-wide struggle against the rotten, dying imperialist system. During the last few decades, the support for Palestine and the struggle against imperialism have been undermined and weakened, especially in the imperialist countries, by a bourgeois, revisionist so-called “left” that condemns the just liberation struggles of the oppressed peoples, supports imperialism and its wars and promotes the hoax of “Western democracy”. These false “leftists” – parliamentary and extraparliamentary – have even actively participated in the racist, chauvinist propaganda campaign against the Arab peoples under the guise of “combatting Islamism” or “rejecting nationalism”. Just like the decades of racist propaganda that paved the way for the genocide against the Jews, this campaign against Muslims has paved the way for the present genocide in Palestine.

The immense popular movement for Palestine shows that the masses of the working people no longer accept being manipulated by the careerist politicians from “left” to right who serve imperialism. It shows that revolution is the main historical tendency in the world today, and that the union of the working peoples in the imperialist countries with the oppressed peoples of the third world is what is needed in order to topple the bloodstained exploiters that rule the world. This movement, and the whole experience of the Palestinian liberation struggle, shows that the fight against imperialism cannot be separated from the class struggle between the bourgeoisie and the proletariat; that those who betray and undermine the struggle in every country do so because they represent the interests of a minority of exploiters against the interests of the vast majority of working people. Therefore, every struggle against this system, and every struggle for national liberation against imperialism, must ultimately be led by the working class in order to triumph and continue the revolution until there is no more exploitation, no more classes and no more wars.

The imperialists, reactionaries and revisionists will undoubtedly try to once again contain and pacify the Palestinian resistance and its international support by yet another “peace agreement” and possibly by replacing the current Zionist fascist Netanyahu government with a “nicer” one in order to continue the exploitation and oppression of Palestine. But the Palestinian people and the peoples of the world will not let themselves be fooled. The Zionist terror state will fall, just as all the imperialists will fall, and PALESTINE WILL BE FREE, FROM THE RIVER TO THE SEA!

FREE PALESTINE!

DOWN WITH THE ZIONIST TERROR STATE!

PEOPLES OF THE WORLD, UNITE AGAINST ALL THE IMPERIALISTS AND THEIR WARS!

LONG LIVE MAOISM, DOWN WITH REVISIONISM!
